I am double checking when we received the validated results. I think it was in March. Chemours was sending us results as they came in and later sent the consolidated results. Will get back to you momentarily.

That's fine. Just know the title in the document will be inconsistent with the web and the desk statement.

Christina – thank you SO much.

Rick – what should the document be dated? March 2018?

No worries, I can do it. I just wanted to check before running it through the application.

Rick – is it?

If not, Christina – can you do it there? Is that too much work?

I just don't know who is in today in the regional office who can do it.

Christina, can you post the attached PDF under the Washington Works bullet on:
<https://www.epa.gov/pfas/site-specific-information>

Let's call the PDF: Chemours Company well sampling results (March 2018)

Does that work for folks?

If so, Christina, let us know once it's up.

Subject: FW: GenX sampling results

Andrea,
Please see attached table for GenX (HFPO-DA) sampling results for the 14 public and private water supplies in West Virginia and Ohio.
Is it possible to get it posted onto the website soon?
If so, we may still be able to make the notifications today – please advise.
Thank you!
